THE COOKING STATION

The centerpiece of the UK3 is the cooking station, appointed with:

- Stainless steel slide-in range with easy to access front controls.
- Stainless steel backsplash with folding chrome utility racks.
- Slim-profile, Euro-style range hood.
- Stainless steel floating shelves that offer additional storage space and a raw, utilitarian look.

Elevating the kitchen's convenience factor is the ample storage space found in the Shaker-style cabinets, drawers and cubbies. Horizontal, pull-up, overhead cabinets with LED accent lighting and glass inserts, provide an elegant yet subtle display for dishes and stemware. Additional touches like modern cabinet pulls and subway tile backsplash — as well as stainless steel appliances from Whirlpool® — bring this European-inspired aesthetic full circle.

THE KITCHEN SINK

The focal point of the UK3's stainless steel farmhouse sink is its black and brushed nickel faucet. Equal parts industrial design and modern amenity, the faucet touts a pull-out sprayer that's ideal for cleaning large dishes and pans.

The UK3's stainless steel farmhouse sink is a multi-purpose hub for a variety of meal prep needs. Its large bowl size readily accommodates oversized cookware. Equipped with three accessories — a stainless steel colander, drying rack and cutting board — the sink is also designed with a protective bottom rack to help prevent scratches when scrubbing stubborn pots and pans.

The UK3 boils down to two words: luxury and convenience. Infused with a sleek, contemporary design and peppered with user-friendly amenities and innovative comforts, the UK3 delivers everything you need — and all you could want — on a silver platter. Learn more today.
